## Overview

- [Introduction](#)
- [Key Features](#)
- [System Requirements](#)

### Introduction

Thank you for using AudiCable Audio Recorder for Mac!

[AudiCable Audio Recorder for Mac](#) is dedicated to downloading any streaming songs to plain MP3/AAC/FLAC/WAV/AIFF/ALAC at 10x faster speed. It effortlessly retains original audio quality and ID3 tags when the conversion is completed. You can enjoy the free playback forever on any device.

Additionally, AudiCable Audio Recorder offers dual conversion modes: App mode and Web Mode. The program works like a charm, no matter which one you choose. After music conversion, it's convenient to personalize the tracks with built-in audio tools, including a format converter, AA/AAX converter and tags editor.

### Key Features

- Convert Spotify, Amazon Music, Apple Music, Pandora, Tidal, YouTube Music, SoundCloud, Deezer, etc.
- Output songs, playlists, podcasts, audiobooks to MP3, AAC, FLAC, WAV, AIFF, or ALAC.
- Batch convert streaming songs at 10X faster speed in original audio quality.
- Preserve ID3 tags including Title, Artist, Album, Artwork, etc.
- 1-Click to edit ID3 tags, convert AA/AAX audio and other formats.
- Highly compatible with the latest macOS 14.

### System Requirements

- Mac OS X 10.11-13 Ventura
- 256MB or higher of RAM
- At least 512M physical RAM
- 1G Hz Intel processor or above
- 1024\*768 resolution display or higher

## Purchase & Registration

- [Purchase License](#)
- [Registration Tips](#)

### Purchase AudiCable Audio Recorder One for Mac

**Quick Link:** To purchase a license key for AudiCable Audio Recorder for Mac, click [here](#).

#### 1. Why should I buy AudiCable Audio Recorder for Mac?

The trial version of AudiCable Audio Recorder for Mac is limited to converting the initial one minute of each audio file. To get around the restriction, a licence key is required. You will receive a confirmation email containing your registration ID and product key, which are required to access the complete version of the software, once you have purchased it.

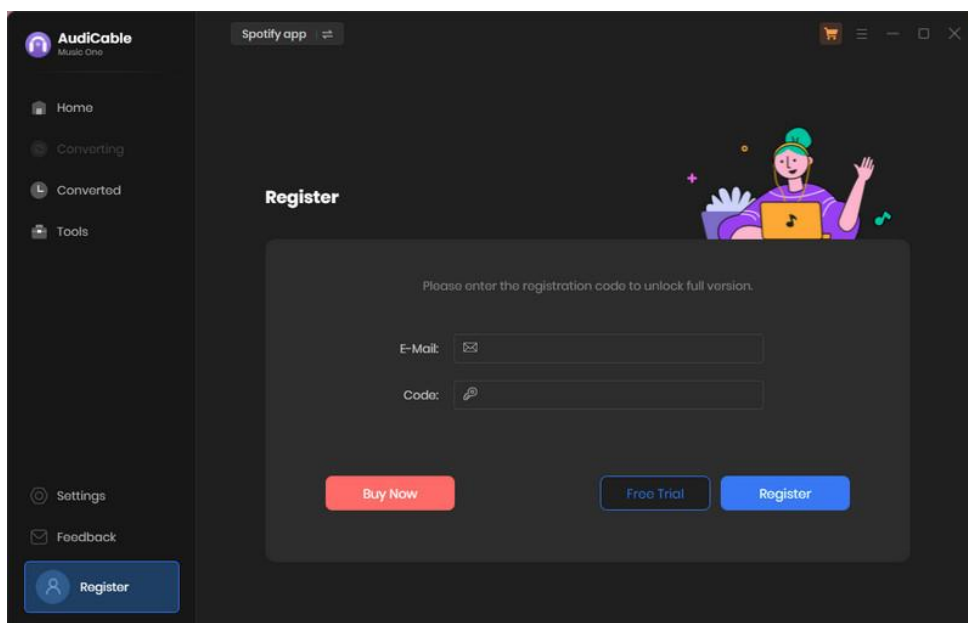

#### 2. How can I benefit from purchasing a license?

- Full music conversion from all supported streaming music platforms.
- FREE technical support.

### Register AudiCable Audio Recorder for Mac

**Step 1:** Start AudiCable Audio Recorder on your Mac.

**Step 2:** Please click the "**Register**" icon (on the bottom left). There will be a registration popup dialog, where you can copy and paste the registration email and license code.

## AudiCable Audio Recorder for Mac

---

**Notice:**

1. Please make sure you've purchased a correct license to unlock the limitations of the trial version. You can't use the license for Mac to activate the Windows version.
2. The registration information is case sensitive. Please do not add blank at the beginning or at the end of the registration e-mail and code.
